3. As a result of high priority procurement and processing by the Photo Branch of photography taken at the Tushino Air Show in Moscow, a large volume of black and white prints and color transparencies were furnished to meet the requirements of OCI, ORR, OSI, NPIC and interested offices in the Department of Defense. The Branch received special commendations from ORR and OSI for services rendered. In addition, CRS, NBC and Hearst newscast coverage of the Soviet 9 July aviation display at Tushino was assembled by the Film Branch and presented to an audience of 43 persons representing this Agency, Army and the Air Force. Immediately following that presentation, short "crash" loans of the film were made for the weekly briefings of the Under Secretary of the Army and of the Air Force, and of the Joint Chiefs of Staff. AFICIN, ACSI, ONI and ATIC units were serviced quickly for evaluation of the aircraft. Meanwhile Film Branch proceeded with the preparation of an edited ten-minute version of the best footage from the newscasts. Multiple prints of the edited version were distributed on long-term loans to all interested components of this and other intelligence agencies.
4. The Film Branch edited extensive footage on recent Cuban developments to support a series of briefings sponsored by the Secretary of State's Special Operations Staff. Many news stories were combined into a new treatment for this purpose.
5. Through direct arrangements with the major television networks, Film Branch secured on short loan basis the videotapes of the Moscow and Havana May Day Parades. These were presented at four showings at the Pentagon for OCI, ORR, OSI, NPIC, Army and Air Force. 25X1
6. Included in receipts from the Graphics Coordinator Program were several excellent rolls of film from [redacted] 25X1
[redacted] were very satisfactorily answered. During this period specific requirements guidance lists were prepared and sent to [redacted] in Libya, Johannesburg, Iran, Turkey, Northern Rhodesia, Nyasaland and Argentina. In addition, the Photo Branch furnished [redacted] with comprehensive specific photographic requirements on Turkey, Iran, Honduras, Guinea, Mali, Mauritania, Niger, Senegal, Southern and Northern Rhodesia, Nyasaland, Sudan, Tunisia, Upper Volta, Ghana, Malaya, Cambodia, and South Vietnam. Seventy-seven copies of each list were provided for dissemination to all [redacted] Field Offices. These requirements reflected the composite needs of USIB offices for NIS and operational studies. 25X1

B. Examples of Outstanding Service or Support

1. Graphics Register and SAC have begun a joint test project for increasing the exploitation of photography in selected open-source publications. Results of the test will provide the basis for a subsequent formal proposal affecting community interests.
2. The acquisition by GR of the space flight films of Gagarin and Titov permitted comprehensive community exploitation up through Service Secretary levels.
3. Over 11,000 still photographs were provided by GR from these films to meet priority requirements of USIB and Agency offices. The photography supplied new and valuable information on Soviet space flights

- 25X1 2. During this quarter over a dozen shipments of photographs have been received from the [] in Phnom Penh, Cambodia. All of the photography has been taken in direct response to specific requirements served by Graphics Register. Additional descriptive information accompanying the photography is of sufficient value to justify the publishing of two CR-GR reports covering this material.
- 25X1 3. During the past year Graphics Register has prepared and sent detailed lists of photographic requirements to Foreign Service posts for use as photographic collection guidance. In January, 1962, duplicate copies of these lists were sent to [] for use by domestic field stations in their exploitation of firms and individuals for foreign intelligence information. As a result, there has been a definite increase in number and quality of photographic collections received from []. Of particular importance to current needs were large collections of color photography on Burma, Cambodia, South Vietnam and Indonesia.
- 25X1 4. A collection of 1,100 photographs taken in China during September, 1961, was received through []. The photography, [] provided new and valuable information on power plants, transportation, housing, sociological subjects and beach areas.
- 25X1 5. Photographic support for current requirements on a timely, dependable, basis is one of the main features of the Graphics Coordinator Program. Typical is a recent request from OBI for photographs and sample ballots relating to the presidential and congressional elections in Costa Rica on February 4, 1962. All of the material requested was provided within 30 days. The well illustrated NIS Section 53 on Political Dynamics in Costa Rica was so impressive that it will serve as a model for future publications on other countries.
6. A priority request from DDP/WH/4 for photography of Communist Bloc military equipment and aircraft being shipped to Cuba was answered with a total of 828 photographs. Enlargements were processed for use in briefings and field identification programs.
7. A magnetic sound track commentary in English was added to a full length color version of the Russian film, "Again to the Stars" which featured Titov's space flight.
